KATALOG 2025  
INDO FASHION CORP

# Ordering Process

**1**  
**Consultation**  
Client consults regarding production requirements such as design, material, and size.

**2**  
**Sampling**  
The sampling process will be initiated upon agreement of the design, material, and size as per the client's request. Estimated sampling time is 6-7 working days, depending on the complexity of the model and client's requirements

**3**  
**Fitting**  
The client conducts a fitting session based on the design, material, and size for their comfort.  
  
If the client is located outside Surabaya, the sampled or finished product can be sent via expedited shipping (JNE, JNT, Sicepat, Gosend, etc.).  
  
Shipping costs for the sample, sample revision, and production will be borne by the client.

**4**  
**Revision**  
The client can request a maximum of one revision (resizing) without any additional design/model changes to the sampled product. The estimated revision time depends on the queue and complexity of the revision type.

Any revisions beyond resizing or resulting from production errors will be fully borne by the client.  
Revisions exceeding one will incur a revision charge fee (the fee is proportional to the number of revisions).

**5**  
**Production**  
The approved sample will proceed to the production process with an estimated time of 6-7 working days per model

The production price per piece includes packing in a box and white paper inside the box.

**6**  
**Packing**  
The finished product will undergo a final QC (Quality Control) process and will be packaged appropriately according to quality standards.

**7**  
**Delivery**  
Finished product will be shipped to the client, with a choice of various shipping options (JNE, JNT, Sicepat, Paxel, Gosend).  
  
The client can also arrange to pick up the finished product themselves.
